Course Navigation Guide

Course Navigation

The layout of the user interface gives you the ability to navigate to a specific page of the courseware by using the following:

1. Level Menu - Navigate between the levels of the course.

2. Navigation Buttons - Move to the next/previous page and/or replay.

3. Tools - Use the features to navigate the courseware for a better learning experience (See next page for a description of each tool).

Course Navigation Guide

Tools

	PLAY/PAUSE Play or pause audio associated with page.
	AUDIO Adjusts volume of the courseware. This will not override your computer's volume. Your computer's audio must be turned on for this feature to work.
	FULL SCREEN Maximizes the page to the full size of your screen. Full-screen mode presents pages in greater detail. To return to the normal size window, select button again, or press 'ESC' key.
	ADD COMMENT Allows you to send comments and/or feedback to Apex Innovations.
	SEARCH TERMS Search for specific words or phrases. Select a search result to navigate to the corresponding page.
	BOOKMARKS Bookmark and quickly return to your favorite page(s).
	ADDITIONAL INFORMATION Displays any additional information related to the content on the page you are viewing.
	FUN FACTS Displays fun and interesting facts related to the content on your current page.
	KEY QUESTIONS Presents key questions related to the information on the page you are viewing. Select the question to see the answer.
